### **Executive Update**

A petition was presented to the Executive in February regarding the condition of the course and the ongoing planned maintenance schedule.

The petition was signed by 80 members and expressed dissatisfaction with the presentation of the course and concerns regarding the reduction in the green sizes in recent years.

The Executive takes these concerns very seriously and has met with the three signatories who initially presented the petition to discuss how these concerns will be addressed and agree next steps.

The response to each of the points raised in the petition and an action plan have been included on the Noosa Golf Club website <http://www.noosagolf.com.au/wp-content/uploads/Petition-Revision-Table.pdf> and will be updated quarterly.

All parties agree that the course has improved significantly over the last few weeks and the Executive Committee is confident that the ongoing works will result in a course that we can all be proud of once again.
